

Ruskin Titus[®] Gulf

AIR & SOUND CONTROL

Ruskin Titus Gulf (RTG) manufactures and markets the two leading companies within the HVAC sector of Air Distribution Technologies Inc. product group: Ruskin and Titus.

Headquartered in Dubai - UAE with a state-of-the-art manufacturing facility in Umm Al Quwain, UAE, the group today is a successful manufacturer of the industry's global leading brands of Air and Sound Control products for the Middle East region.

The manufacturing facility in UAE has exceeded international quality standards as exemplified by achieving ISO 9001:2008 certification and products that are approved by UL, AHRI and AMCA. All Ruskin's designs of Fire, Smoke and Combination Fire & Smoke Dampers manufactured by RTG, bear the UL label. These facilities have the state-of-the-art machinery and tooling to meet the design specifications of Ruskin engineering standards. Similarly, all Titus Terminal Units (VAV units) and Air Outlets manufactured at Umm Al Quwain factory deliver identical performance that meet the stringent quality standards as required at our manufacturing facilities in the United States of America.

Ruskin Titus[®] AIR & SOUND CONTROL Gulf

Throughout the years of servicing the requirements of mega projects such as Dubai International Airport, Dubai Metro, ARAMCO D&C, and many more... The Ruskin Titus Gulf team has been able to establish a powerful presence in the Middle East.

Collaborating with engineering and application experts in the HVAC industry from the USA, UK and EUROPE reflects the group initiative to adapt to the evolving demands of its Middle East clientele.

Ruskin Titus Gulf is about commitment to excellence, building relationship, expanding horizon, evaluating standards, redefining quality and also devoted to providing the highest level of customer service. It is our customer care professionals and product application engineers that continue to make Ruskin Titus Gulf the top choice for engineers, architects and contractors in the building construction process in the Middle East.

Ruskin Titus Gulf (RTG)–Middle East is the product of a joint venture between the world leading brands in commercial and HVAC industries, Ruskin Co. & Titus. Both companies are part of Air Distribution Technologies Inc. (Division of Johnson Control Inc).

Ruskin Titus[®] AIR & SOUND CONTROL Gulf

Ruskin Company brings more than 50 years of excellence and is the largest and most innovative manufacturer of dampers and louvers with 21 production and office locations worldwide and over 3,300 employees.

Titus has over 60 years of manufacturing experience and is the world's largest manufacturer of products that control, move, direct and diffuse air in commercial buildings. Today, Titus is the market share leader in diffusers and air terminals.
